Mr. Richard R. Suhm  
SafeTSpin  
226 Vinewood Drive  
Avon Lake, OH 44102

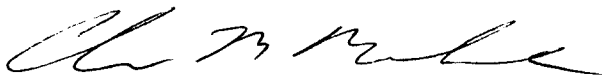

Dear Mr. Suhm:

It has been almost two years since we purchased the VRD-50 Vertical SafeTSpin disks for use on our new hospital construction site. Heavy construction work was being performed very closely around our Meducare Helipad and we needed to enhance our safety mechanisms to ensure safe take offs and landings by our Meducare teams.

The SafeTSpins have performed outstandingly. We were able to complete our construction with no safety issues or concerns by our flight teams in large part due to the SafeTSpin disks.

We would highly recommend SafeTSpin as an effective safety tool

Sincerely,

Christopher M. Malanuk  
Project Director, MUSC Phase I Hospital Replacement Project
